FULLSTACK DEVELOPER

Nihad Maharramov, I have 3 years of experience web and mobile development, and constantly learning, developing new technical knowledge in web and mobile development. Also, soft skills are as important as technical knowledge. My communication skills enable me to work harmoniously in a team and to successfully complete projects by collaborating with team members. My problem solving ability and analytical thinking make me strong to overcome the difficulties and produce effective solutions. I constantly follow new technologies and take care to have the most up-to-date information in the field. Also, I care about listening to feedback and constantly improving myself with my mistakes.
